Additional Benford Analysis of Chicago and Pittsburg, Like Milwaukee, Show Likely Voter Fraud Benefiting Biden

November 8, 2020
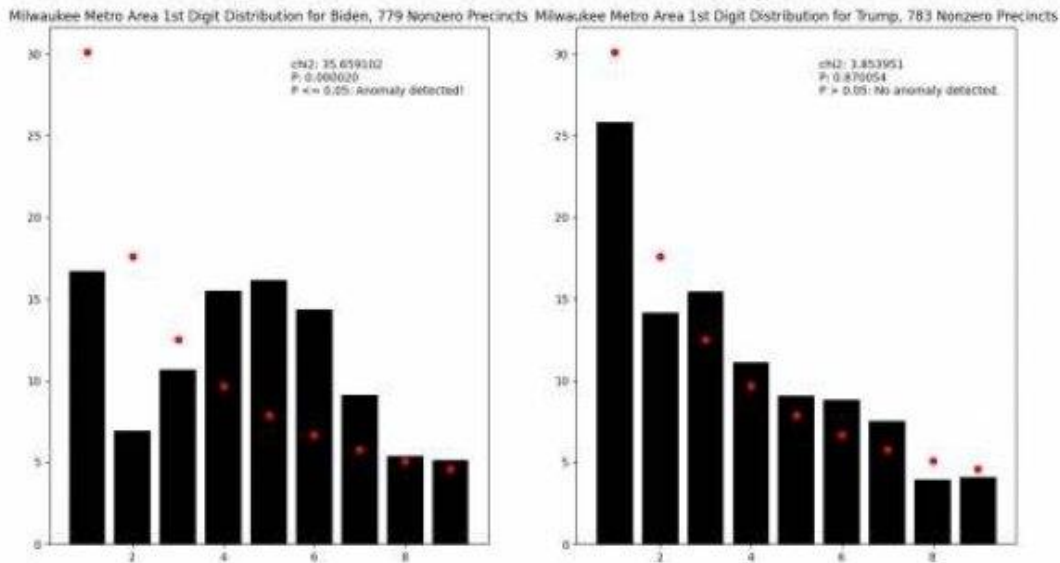

We reported already that by using the audit statistical technique known as 'Benford Analysis' the precincts in Milwaukee are where the focus of any fraud audit in Wisconsin should take place.

In Wisconsin on the night of the election, President Trump was winning early into the morning. However, when Americans woke up on Wednesday Joe Biden had somehow taken the lead in Wisconsin after a vote dump of 100,000 votes appeared overnight.

Voter Fraud in Wisconsin – Massive Dump of Over 100,000 Ballots for Biden All the Sudden Appear Overnight

The concerns with the unreasonable increase in ballots in Wisconsin led to one expert to share with us his analysis on Wisconsin voter data. The results of this expert's Benford analysis, a statistical technique which identifies outliers in data sets, showed that Biden's numbers in Milwaukee made no sense and due to the many outliers indicate potential fraud:

TRENDING: "This Felt Like a Drug Deal!" – Asian-American Ballot Observer in Detroit Describes Mysterious Van Dropping Off 61 Boxes of Ballots at 4 AM (VIDEO)

Milwaukee Metro Area 1st Digit Distribution for Biden, 779 Nonzero Precincts   Milwaukee Metro Area 1st Digit Distribution for Trump, 783 Nonzero Precincts
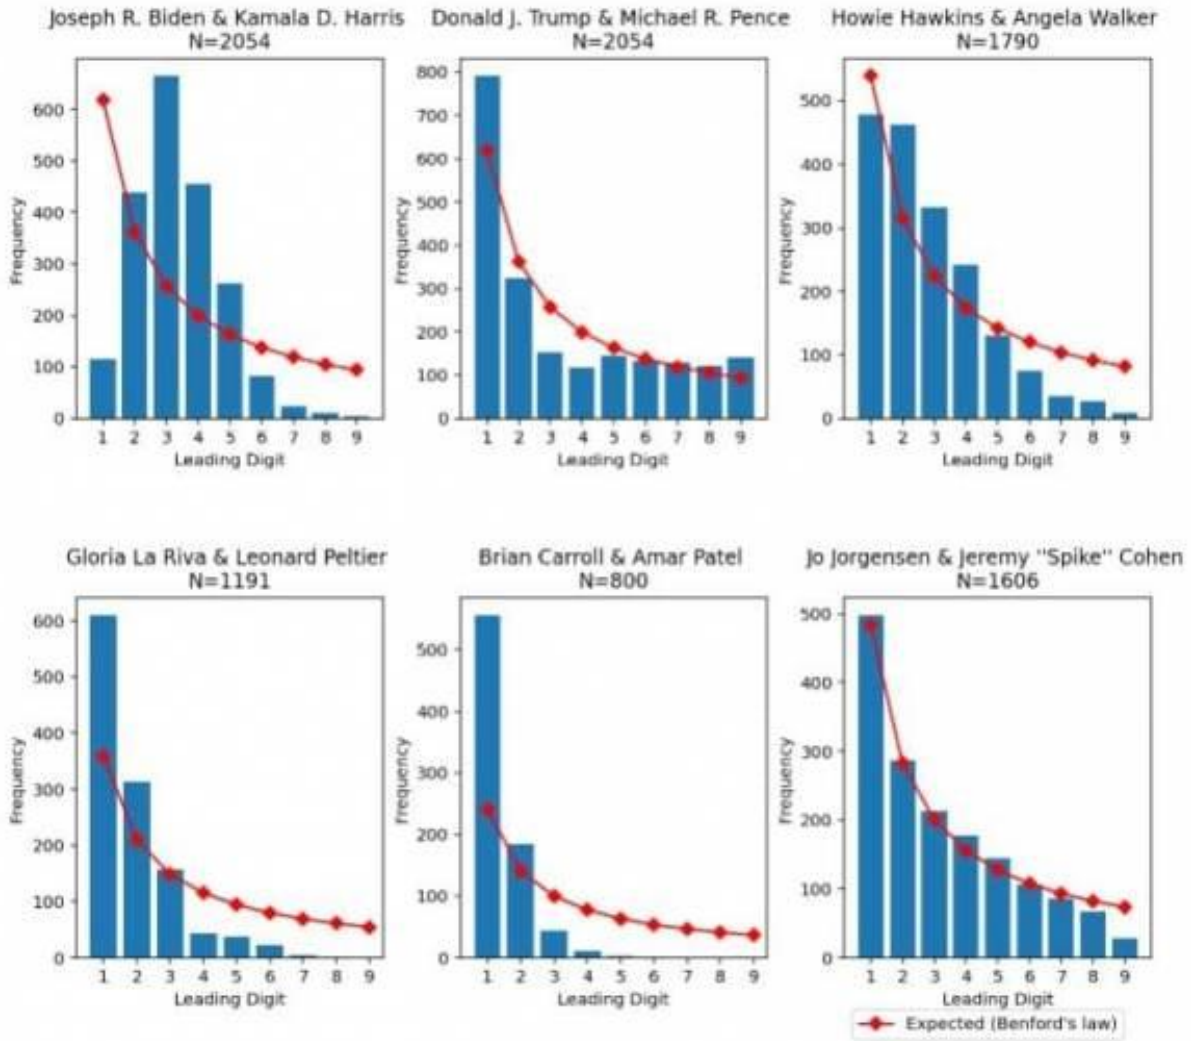

Now additional analysis shows that similar patterns exist for Biden in both Chicago and Pittsburgh:

Biden's Vote Tallies apparently Violate Benford's Law, everyone else follow across the country, except for Biden in key races. This is a test for catching election fraud, used by the State Department and forensic accountants. https://t.co/XbZtRQyxZuhttps://t.co/crK9HChfnW pic.twitter.com/mHNjStrB2Q

— Elefant Respecter (@DatElefan) November 6, 2020

The additional analysis shows Biden's results in Chicago indicate fraud. Notice how Biden's numbers are way outside of expectations and yet Trump and other candidates look reasonable:

Chicago

In Pittsburgh the same thing. Biden's numbers indicate potential fraud:

Based on this analysis there is ample evidence for an audit team to focus on Milwaukee, Chicago and Pittsburgh when looking into the results of the election in Wisconsin, Illinois and Pittsburgh.
