It was a classic false flag operation. – In case you still labor under the illusion that BLM/Antifa agitators did not help cause the Capitol riot on January 6, the federal government disagrees. Radical BLM/Antifa professional agitator John E. Sullivan was arrested yesterday for his role in the rioting:

Radical BLM activist John E. Sullivan has been arrested over his alleged involvement in the Capitol Hill riots. He's been charged with rioting and criminal mischief. Last summer he was also charged over a BLM Utah riot where a person was shot. <https://t.co/kRUanH9IFS>

From the [story at Fox 13 in Salt Lake City](#):

OOELE COUNTY, Utah — Utah activist John Sullivan was taken into custody in Provo Thursday, over a week after he shared video of himself inside the U.S. Capitol as protesters breached security.

Sullivan, 26, was charged in federal court with:

- One count of knowingly entering or remaining in any restricted building or grounds without lawful authority
- One count of violent entry and disorderly conduct on Capitol grounds
- One count of interfering with law enforcement engaged in the lawful performance of their official duties incident to and during the commission of civil disorder

The arrest document states Sullivan can be seen outside the Capitol building using a microphone as he told the crowd “we about to burn this s ___ down,” “we got to rip Trump out of office... f _____ pull him out of that shit... we ain’t waiting until the next election... we about to go get that m _____.”

While in the Capitol, Sullivan was wearing a ballistics vest and gas mask.

[In a video posted to social media last week](#), Sullivan said he ran into the Capitol building with the others to document what was transpiring.

“I was there to record,” said Sullivan in a video posted to Periscope Friday. “I was there to let people see that situation in the best possible way.”

Sullivan is the founder of Insurgence USA, an activist group formed after the killing of George Floyd in the summer of 2020. He says he voluntarily interviewed with the FBI in Washington, DC on Jan. 7.

Maria Bartiromo is sharing video on Fox Business this morning of Sullivan and his fellow BLM/Antifa rioters running through the Capitol Building yelling about want to “burn this sh*t down!” Sullivan is also one of the people who took video of the shooting of 14-year Air Force veteran Ashlii Babbitt during the riot.

UPDATE: Oh, yeah, I forgot to include this in the first draft of this piece, but, after he helped execute the Capitol Riot, Sullivan was invited to appear with Anderson Cooper on CNN that same night:

The story doesn't doesn't recount it, but Sullivan was one of the organizers of the riot in Provo, Utah in which two innocent car drivers who just happened to be caught in its midst were shot. He was briefly arrested, released by a Marxist judge, and has been running around free ever since. Judging from the pissant charges he is facing in this case and the fact that Washington, DC is controlled by radical Marxist Democrats, he will likely be running around free again today.

As I have said all along to the dismay of many readers, there is no question that thousands of actual Trump supporters did indeed participate in the forced breaching of the outer security perimeter at the Capitol on January 6. There is also no question that dozens, if not hundreds of actual Trump supporters, including the late Ms. Babbitt, did indeed participate in the invasion of the Capitol building itself.

But, as I have also pointed out from Day 1, there is also no question that this riot was a classic false flag operation, led at least in part by professional BLM/Antifa agitators like Sullivan.

And the troubling news is that there is another obvious false flag setup brewing on Sunday. The FBI and its plants in the fake news media have been pushing the narrative all week that the raging dumpster fire of corruption and incompetence law enforcement agency expects "violent riots" to take place on January 17. The claim is that the same "Trump supporters" who organized the Capitol riot on January 6 are now organizing these "violent riots" to take place in all 50 state Capitols that day.

Here's an excerpt from a [typical fake media story](#) at MSN.com:

The FBI is expecting armed protests at state capitols across the country, according to tweets from ABC News correspondent Aaron Katersky.

On Monday, Katersky tweeted that ABC had received a bulletin from the FBI stating that the protests are being planned and are expected to begin January 16 and continue through at least January 20 – Inauguration Day.

He also tweeted "The FBI has 'received information about an identified armed group intending to travel to Washington, DC on 16 January. They have warned that if Congress attempts to remove POTUS via the 25th Amendment a huge uprising will occur,' according to a bulletin obtained by @ABC"

The news comes less than a week after violence erupted in the nation's capital on Wednesday as congress was set to count the Electoral College votes, confirming President-elect Joe Biden's victory over President Donald Trump.

[End]

This is an obvious setup, designed to accomplish two goals: 1) To discourage any and all supporters of President Trump from exercising their right to assemble and peacefully express their beliefs, and 2) to set up a narrative that will lay the blame at their feet for any violence professional BLM/Antifa rioters like Sullivan wish to foment on Sunday.

Because deception is the FBI's stock in trade, its core competency as an organization, and has been for many decades now.

If you are planning to participate in a peaceful protest against this blatantly stolen election on Sunday, keep your head on a swivel and be ready to loudly identify and shun the professional agitators in your midst, because they will certainly be there with you.

That is all.
