

Wallace in this monument at Glasgow.....is....
the standard-issue freedom fighter of the imagination with:

- * The Give 'em hell whiskers,
- * The Save-me-Jesus eyes, and
- * The hamstrings from hell.

Wallace was not a one-man campaign. We don't know if he could have been a stuntman for Mel Gibson in the movie "Braveheart," but his epic romance refuses to go away.

It is important for young officers, as Patton once said, to study the biographies of great and near-great military leaders of history in order to learn and add to your storehouse-knowledge of tactics, strategy, and leadership.
